

## FRENCH TO HOLD LINE WITH ARMY

CROWN PRINCE ARMY WAS BADLY SHATTERED DURING FIGHTING.

## GERMANS RETREATING

Today's Reports Indicate That Advance of Tuesday More Effective Than First Thought.

[BY ASSOCIATED PRESS.]  
Smashing against the crown prince's lines along a six mile front northeast of Soissons, the French have made important gains and captured more than 7,500 men and twenty-five guns. General Petain completed an effective step toward Laon, southern extremity of the Hindenburg line, and an important railroad center, which is ten miles northeast of Chavignon, where the French advance attained its greatest depth of two and one-half miles. The heights dominating Pargny-Blain, on the extreme right, were seized and the French guns now can batter the Germans on the hills on the opposite side of the Aisne from Chavignon. More important, they can throw sniping fire into the front of the German crown prince's line still clinging to the northern slope of the plateau paralleling Chemin des Dames. Severe Blow.

To the crown prince the blow may prove the most severe he has suffered since Verdun. He has lost several divisions of his best troops, including the Prussian guards, who were rushed forward to hold the line at all cost. General Petain's masterly stroke weakened the German line northward to the forest of St. Gobain. A retreat from this line would probably cause the Germans to give up their present front from Chavignon to St. Gobain. The attackers had no easy task going up hill against fortified defenses, concrete, towers, and massed troops. But the artillery fire was very effective and there was no stopping the French.

Politics Teeming.  
Political affairs in Germany are again seething with the return of the German emperor to Berlin. All parties seem determined that Chancellor Michaelis must go and it is hardly probable the emperor will be willing to oppose this agitation very long. Whether the emperor will appoint another Prussian bureaucrat in Michaelis' place is not yet clear. Some leaders of the opposition are already planning to oppose the emperor's return. The emperor's return is a political question, but socialist opposition against him is still strong.

William in Berlin.  
Copenhagen, Oct. 24.—Emperor William returned to Berlin last night, prepared to begin dealing in the political crisis, particularly as it affects the imperial chancellorship. Rudolf von Valentini, chief of the emperor's civil cabinet, made a report to the emperor on the train of the various developments in the international political situation during the emperor's absence in the Baltic. Valentini is known jokingly as "the carrier of the bow string" on account of the part he plays in the political game of the highest imperial and Prussian officials. He acts as the emperor's eyes and ears in ascertaining public and political opinion.

Responsibility is accredited to Valentini for the selection of Dr. Michaelis when it was decided to drop Prince von Buelow as a candidate. Valentini's selection was announced when it would make open war on the government if the prince were reinstated as chancellor. It is said that Michaelis was not even considered three hours before his appointment was made. Prince von Buelow is again being advanced strongly by the conservative socialists. Though the party's news service announces that if the emperor asks the opinion of the Reichstag parties they will not hesitate to put forth their unfavorable opinion of von Buelow.

Shot by Own Troops.  
British front in France and Belgium, Tuesday, Oct. 23.—In one of the recent captures from the Germans, a British soldier was shot by his own soldiers. His hands had been bound behind him and he had been shot. Many tales are going the rounds among the British soldiers indicating dissensions among the various bodies of German troops. Very often soldiers charged with desertion and other violations of military law escape with light punishment. According to prisoners this is something new for Prussian military discipline.

American Watch Fight.  
With the French armies in France, Oct. 24.—Several American intelligence officers watched the successful attacks made by French troops yesterday. The Americans saw several troops of Germans passing to the rear.

No Counter Attack.  
Paris, Oct. 23.—The Germans attempted no counter attack on the Aisne battle front during the night. In the Verdun sector the Germans position north of hill 344, but were beaten back by the French.

The Grenadier Guards.  
The garrisons of Marmaison, fort captured by the French was composed of first grenadier guard. It is reported that 1400 prisoners were taken, mostly belonging to the younger classes.

Claim of Germany.  
Berlin, Oct. 24.—In their attack on the Aisne front yesterday the French lost their thrust was halted by the German reserves, says today's official communication.

Total Grows.  
Paris, Oct. 24.—The number of prisoners taken by the French in their attack on the Aisne front has reached 8,000, the war office announces.

WASHINGTON WILL BE DRY AFTER NOVEMBER 1.  
[BY ASSOCIATED PRESS.]  
Washington, Oct. 24.—The law which makes the national capital dry Nov. 1 was held today as constitutional in the local supreme court which dismissed the attack of liquor dealers.

## German Chancellor Hands in Portfolio

[BY ASSOCIATED PRESS.]  
London, Oct. 24.—Dr. George Michaelis, the German imperial chancellor, has placed his portfolio in the hands of Emperor William according to an Amsterdam dispatch given out by the wireless press.

## IRISH CONVENTION MAINTAINS CUSTOMS

[BY INTERNATIONAL NEWS.]  
Cork, Oct. 24.—The members of the Irish Convention braved the dangers of mines and submarines a few days ago when they went by steamer to the entrance of the Queenstown harbor and watched the lord mayor of Cork perform the quaint and ancient custom of throwing the dart into the sea to define the limits of his authority as admiral of the port.

This practice, originated in a charter granted to the city by King Henry Seventh in 1500. It prescribed that every three years the ceremony be performed at a point three miles outside the harbor. This time, however, owing to submarine and mine menace, the mayor winked at the custom and to the great relief of his five hundred guests, satisfied tradition by casting the dart at the very mouth of the harbor. Irishmen of all creeds and classes sagged to lunch on served board. Nobleman broke bread beside the democrat and all seemed on good terms. The Protestant archbishop of Ireland sat beside Catholic Archbishop Hart of Cashel, while beside John Redmond were the Earl of Grand and Viscount Midleton. After toasts had been drunk to the king and success to the convention, Sir Horace Plunkett made a hopeful speech on the convention's prospects. "We have passed one very important stage," he said, "and are moving on to the next. All we ask is patience and credit for our good intentions. At the worst we shall have narrowed the differences which keep Irishmen apart. Irishmen of north and south will thus be brought together on terms that they never did before."

Several hundred persons lined the Cork dock to cheer the delegates as they embarked. Redmond received repeated demonstrations which he returned with a speech of appreciation. After a trip down the picturesque river Lee to the Atlantic without incident, on return a hawk was made at Queenstown where the delegates were entertained at the oldest yacht club in the world.

## PARTY UNIFICATION FAVORED BY SENATOR

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Oct. 24.—The letter of Senator Timothy Burke of Green Bay, asking Gov. Philipp to include in his call for a special session of the legislature the idea of allowing the republican and democratic parties to unite "in the war" is receiving serious attention. One of the leading officials of the state last night said that he did not think such a plan should be adopted. Many republicans have taken a similar position, including some men close to the governor. It is admitted on all sides, however, that the Burke plan, which has been tried out in Milwaukee city affairs, may have some merit. The Burke plan is predicated on the idea that if the republicans and democrats unite in contests next fall it would be possible for "disorderly" men to gain office by centering strength of different factions on different candidates. "I believe it advisable to include in your call for a special session of the legislature a provision looking to the necessity of such a union existing between the republican and democratic parties at the general election to be held in the fall of 1918," writes Senator Burke. "It may be necessary to do this for the reason that I believe that all the anti-war vote will combine with the socialists to control the congressional, state and legislative positions the next time. A bill can be drafted along the manner outlined by the present non-partisan laws to cover the situation."

It is understood that another letter along the same line has been written to Thomas J. Mahon, who is active in the work of the defense league, Milwaukee.

## Around The State

Women Will Meet.  
Milwaukee, Oct. 24.—A big celebration of suffrage victories of the last year will be staged with the convention of the Wisconsin Women's Suffrage Association here Nov. 14-16.

Mrs. Nellie McClung of Edmonton, Canada, one of the prominent Canadian suffrage workers, will address the convention. Hundreds of women from every city in the state are expected to attend the convention.

Encourages Farming.  
Milwaukee, Oct. 24.—To encourage scientific farming, Niel Norris, prominent Milwaukee philanthropist and social worker, has purchased a 260-acre farm at Dodge Corners to be converted into a boys farm. The place is to be completely stocked and equipped and an efficient management engaged. All work will be done by boys under supervision. Dairying will be one of the big industries on this modern farm. Everything will be done scientifically and Mr. Norris himself will watch it closely.

Children's Fairs.  
Fond du Lac, Wis., Oct. 24.—Teachers in Brown county schools have inaugurated a new idea in community socials to arouse patriotism in rural districts. Fairs at which grains and vegetables have been exhibited, are being held this fall. Contests in bread-making and apron-making have been features of the affairs.

Add Another School.  
Green Bay, Oct. 24.—By consolidating two districts in the town of Lawrence, state graded school to its list, making 27 in all and placing this county ahead of all others in Wisconsin in that respect. Only after a year's fight during which time the question was before the state board was the consolidation brought about.

Look for Thief.  
Appleton, Oct. 24.—The police are now scouring the country for John Powers, who is wanted for having taken liberties with three gold nuggets and for the theft of a gold nugget, valued at \$10 from William A. Burmeister, Bear Creek.

## KAISER MUST FALL, SAYS MORGENTHAU

Henry Morgenthau.

In a recent statement, Henry Morgenthau, ex-ambassador to Turkey and lately returned from a visit to the French front, declares that lasting peace can only come after the Kaiser has left the throne. "William Hohenzollern is responsible," says Morgenthau, "and in the hour of reckoning he will not be able to shift that responsibility."

## PHILIPP FAVORS THE ELECTION TO SENATE

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Oct. 24.—That the call for the special session of the legislature should contain the proposition giving the executive power to make appointments to the United States senatorship in the case of a vacancy, is the proposition which is now being urged by many upon Governor Philipp. While the governor has made no statement regarding the matter, it is probable that he will allow the present laws giving the people the right to fill vacancies to control. From Attorney General Owen the governor has sought advice as to whether the vacancy caused by the death of Senator Hustung could be filled by appointment. While no written opinion was rendered the executive has been informed by Mr. Owen that the vacancy must be filled by a primary election.

Probably the first question to be disposed of is whether he will submit the question to a special session of the legislature to determine if power to make the appointment will be given to the governor. The law is plain that it is within the discretion of the executive to call the election whenever he pleases. Naturally enough there is much talk of Governor Philipp becoming a candidate. He has given the matter no consideration. The only other republican candidates that have received notice are former Governor McGovern and W. H. Hutton, New London, and M. J. Jeffers, Madison. Many of the leading republicans of the state are urging that Governor Philipp enter the field. Recent patriotic speeches of the executive in favor of President Wilson's administration has made him many democratic friends. The next session of congress begins in December. There are some who believe that the matter should be allowed to drift until the general election next fall.

## MARATHON WANTS LA FOLLETTE OUSTED

Wausau, Oct. 24.—The Marathon county council of defense last night adopted a memorial to the U. S. senate asking the expulsion of Senator La Follette in the interest of good citizenship. The memorial "declared the senator made false statements concerning the purpose and motive of this nation in anti-war statements, giving aid to the enemy in the belief that this nation is not united in purpose or resolve thereby prolonging the war and unnecessarily hazarding the lives of our soldiers and sailors and degrading the honor of the American people and of those wearing the American uniform as if he were physically shooting them in the back."

## SEIN FEIN PLOTTERS NOW IN U. S. CUSTODY

[BY ASSOCIATED PRESS.]  
New York, Oct. 24.—U. S. secret service men Tuesday arrested Leon Mallows, said to have been a Sinn Fein revolutionist plotter while trying to make his way back to Ireland under false papers. At the same time they took into custody Baron von Reitelhuysen, said to be a wealthy German and friendly with Mallows. British authorities, it is understood, have arrested at Halifax two other alleged Sinn Fein plotters, who are being held at that port. The pair were trying also to get back to Ireland, it was said.

In the house of commons Tuesday, Henry E. Duke, chief secretary for Ireland, said that last February the British government had deported prisoners from Ireland because Germany was again offering a helping hand to the Sinn Feiners.

## SEIZURE OF BELGIUM WAS STEPPING STONE

[BY ASSOCIATED PRESS.]  
Copenhagen, Oct. 24.—The view of Admiral Von Toppits, former minister of marine, that the seizure of Belgium was the stepping stone in extending control over Holland, was proclaimed by Herr Bachmeister, national liberal leader in the Reichstag in a speech Sunday at Hamburg. Quoting Von Toppits, Herr Bachmeister said, "If England-Americans retain the coast in their hands the Hollanders will enter into their control."

## LOAN WILL OPEN EYES OF GERMANY

LIBERTY DAY BEING OBSERVED THROUGHOUT THE UNITED STATES TODAY.

## INTEREST IS INTENSE

Some Authorities Estimate That Total Will Be Half Billion Over Desired Sum at End of Drive.

[BY ASSOCIATED PRESS.]

Washington, Oct. 24.—Not a community in the United States, so far as the Liberty loan managers can learn, has failed to respond to the call for today's big drive. Parades, speeches, patriotic demonstrations and bond buying are the order of the day from coast to coast.

A flood of dollars, the like of which has never swept in upon the treasury before, officials predicted will follow. How far toward the five billion dollar goal the subscription will be carried, one was willing to forecast. It appeared certain, however, in the light of early advices, that the two million workers throughout the nation would roll up an enormous total.

Liberty day dawned with less than half of the big total taken. Liberal estimates from all reserve districts indicated that \$2,565,000,000 had been subscribed up to the close of business last night, thirty-five million less than officials thought.

When leaders of the District of Columbia Liberty loan campaign went to call on President Wilson today, presumably to get his subscription to the loan, they learned he had subscribed for \$1,000,000 worth of bonds through a local bank paying \$15,000 immediately and agreeing to pay the balance before November 14. The president bought \$10,000 worth of the first issue direct from the treasury.

Over-subscribed.  
[BY ASSOCIATED PRESS.]

Washington, Oct. 24.—Liberty day will see the \$3,000,000,000 second Liberty loan over-subscribed by nearly half a billion. This was the confident prediction of the treasury department officials at noon today when reports began to come in from all quarters telling of a general loosening of purse strings all over the nation at the behest of Liberty loan workers. And the hoped-for over-subscription, running the total to five billion is expected by Saturday night.

At the opening of business today, treasury department figures showed \$2,465,000,000 worth of bonds had been subscribed. At least one billion dollars will be the total of today's bond sales, treasury officials believe. That will mean the over-subscription of the minimum figure set for the loan by half a billion dollars.

With the minimum of \$3,000,000,000 passed, Liberty loan workers will renew their efforts during the last three days of the campaign for an over-subscription to the maximum figure of \$5,000,000,000.

Totals for the twelve federal reserve districts, announced here when the Liberty day drive got under way were: New York, \$825,000,000; Boston, \$225,000,000; Cleveland, \$215,000,000; Philadelphia, \$235,000,000; Minneapolis, \$85,000,000; Atlanta, \$30,000,000; St. Louis, \$100,000,000; Kansas City, \$90,000,000; Chicago, \$375,000,000; Richmond, \$110,000,000.

[BY ASSOCIATED PRESS.]  
Washington, Oct. 24.—Thirty-four nationalities throughout the country today are pouring their money into the second Liberty Loan melting pot in an effort to make the campaign a success. These many races already generous in their subscription to the loan are expected to run up a large total today when they are reminded by Liberty day that the liberty of this country is caused by their citizenship and that their new found freedom can be guaranteed only victory for American troops abroad.

Confidence is expressed here that \$300,000,000 will be subscribed before the campaign ends. During the first campaign the different races subscribed less than \$250,000,000 but war's true meaning has been brought home to them during the present loan and greatly increased sales have resulted. American army units in France have subscribed for more than \$15,000,000 and in some organizations every soldier has subscribed. The total for the expedition force is expected to be larger by the end of the week.

President Wilson today received the nation's most distinguished addresses who came here to sell Liberty bonds. The American Red Cross invested five hundred thousand dollars of its available cash of its endowment fund in Liberty Loans.

## CITIES ALONG RHINE PREPARE FOR ATTACKS

[BY ASSOCIATED PRESS.]

Geneva, Oct. 24.—All towns and cities along the Rhine are expecting reprisal air raids. The number of anti-aircraft guns have been doubled; mayors have summoned meetings to explain precautionary measures to the population and sirens have been mounted on churches.

## DISMISS STUDENTS TO AID THE FARMERS

[BY ASSOCIATED PRESS.]

Marquette, Oct. 24.—Thirty-six Marquette high school boys are aiding farmers in this section to harvest their crops before cold weather, they having been dismissed from classes when an appeal for aid was received by the Marquette County Council of Defense for farm help and fifty volunteer workers were asked for at the school. Help is mostly needed in gathering potatoes and the boys will be paid in addition to being excused from the school work missed. Others may go to farms soon.

## SAYS AMERICA IS FIGHTING FOR U. S.

Lord Northcliffe.

"That this is not a commercial war and that the United States is not in it to 'make the world safe for democracy,'" is declared by Lord Northcliffe, head of the British war mission, in a plain-spoken article entitled "What America is Fighting For," appearing in a current magazine. The American people are fighting for the sole purpose of making the world safe for themselves, Northcliffe declares.

## NOTED INCREASE IN PRICES DURING WAR

[BY ASSOCIATED PRESS.]

Washington, Oct. 24.—Food prices as a whole have advanced 47% over the year before the war. The latest official compilation announced today shows principal articles of food as a whole 6% higher on August 15, 1914, than they were on that date in 1913. There was a drop of 6% in 1915 but in 1916 prices advanced 12% and during the year they have jumped 31% from July to August. This year there was a 2% increase in the combined prices of the principal articles of food. Flour prices in August were 24% times what they were in August, 1913. The increase was 130% for corn meal advanced almost as much with an increase of 120%. Potatoes advanced 87%. Sugar 77%. Lard 92%, and pork chops 58%.

During the week ending August 15, 1917, the cost of the article to decrease in price. Corn meal doubled in price; flour advanced 70%; beans 59%, and other articles to a lesser degree.

## FUNERAL OF PAUL O. HUSTING HELD TODAY

[BY ASSOCIATED PRESS.]

Mayville, Wis., Oct. 24.—The funeral of U. S. Senator Paul O. Husting who was accidentally shot and killed by his brother Gustave while on a hunting trip Sunday at Rush Lake, was held Wednesday forenoon. The body being laid to rest in the family plot at Graceland cemetery.

A large number of relatives and friends attended the last rites. The religious services were held at the home of the late senator's sister, Mrs. Bella Amoreux, were conducted by the Rev. Frank B. Dunkley. A funeral oration was delivered by Judge Martin Luck of Juneau, Wis., a life long friend of the senator.

The active wallbearers were members of the Blue Wing Hunting club of which Senator Husting was a charter member and the honorary bearers included U. S. Senator R. M. La Follette and the eleven Wisconsin congressmen.

Prominent among others who attended the funeral were Gov. E. L. Philipp, Lieut. Gov. E. F. Dittmar, delegations of members of the legislature and federal and state officials. A special train carried a large number of Milwaukee friends of the deceased for the ceremonies. Business was suspended throughout the town and flags were at half mast all over the state.

Shortly before ten o'clock the couple slipped away without being observed and later returned attired in their wedding array. The surprise of the surprisers was immeasurable. They had come to surprise but were surprised. The wedding was solemnized by the Rev. W. C. Bird. The bride was attired in a blue silk gown.

## General Pershing Visits Second Line Of the Aisne Front

[BY ASSOCIATED PRESS.]

American training camp in France, Oct. 24.—General Pershing accompanied one of the French generals as far as the second German line in the French attack on the Aisne front.

General Pershing was with General Franchepuy d'Esperey at first observing the attack from a favorable position some distance in the rear when General Pershing suggested going into the French trenches. This they did, but General Pershing was not satisfied with the way the attack was being made and went on through the shell fire into the first line of the captured German trenches and then into the second line. General Pershing's attitude is the talk of the French army. The American general afterwards left with General Franchepuy d'Esperey to his headquarters and was present when the general gave the command-in-chief a detailed report of the successful attacks.

## AUSTRIANS START COUNTER-DRIVE TODAY

[BY ASSOCIATED PRESS.]

## RED CROSS TRAINS MANY FOR SERVICE

[SPECIAL TO THE GAZETTE.]

Washington, Oct. 24.—The American Red Cross has developed and trained nearly two hundred thousand first aid experts in the last six months, it was learned today.

They are all men, and are available for war service if needed. The course of instruction, which is in the hands of seven thousand Red Cross physicians and surgeons throughout the country, also is open to women.

Nearly a hundred thousand railroad men, half as many lumbermen and as many quarrymen have received instruction in "first aid" this year. This work covers the stoppage of hemorrhages, resuscitating following drowning or gas asphyxiation, the caring of injured persons and many other phases of first aid, especially in the hazardous industries.

The course covers ten lectures, supplemented by the requisite practical work, at the conclusion of which certificates are issued to those completing the course satisfactorily.

The Red Cross has two "first-aid" cars for the instruction of railroad men, one of which has just finished a tour of three months giving instruction to the railroad men.

Through these courses the first aid division of the Red Cross is building up a reserve men available for Red Cross war service but also for sanitary training detachments to provide a sanitary reserve for the army and navy.

Prof. Otis also of Madison will talk on "Values and Results of Cooperation." There will also be music and recitations.

Several contributions to the Red Cross society of two of \$5.00 each, one of \$4.00, one of \$2.00, one of \$1.00 is very gratifying to the officers of the society as it is bringing the total up on the \$60.00 expended for yarn.

# Columbia Grafonola and Columbia Records

"Certainly,  
you may try it at your home"

SENDING an instrument home so that the whole family can put the Columbia Grafonola to the final test under the very conditions under which it will be played, is one of the ways Columbia Grafonolas are sold.

Can anything be fairer?

The phonograph you want in your home is the instrument that plays in your home the kind of music you like best, in exactly the way you like to have it played. Any Columbia dealer will be only too glad to send a Columbia Grafonola to your home

for a further test. Just ask him and he will say:

"Certainly."

Columbia dealers welcome an opportunity to have you play as many records of your own selection as you wish upon Columbia instruments in their stores. They want and expect you to ask questions about Columbia Grafonolas and records—the more you ask the better they will like it.

Step into a Columbia store today and learn how thoroughly enjoyable the business of buying a phonograph the Columbia way really is.

Columbia Grafonolas are made in a large number of models, with the widest range of prices in the phonograph field.

We used to say:

"The Maxwell's real greatness is on the inside—the mechanical parts you can't see."

But the wonderful new 1918 Maxwell has just been delivered to us.

Now we've changed our tune.

Today we say:

"The Maxwell is great inside and out—great in EVERY POSSIBLE way."

Always the most efficient—most economical light car built, the Maxwell now has:

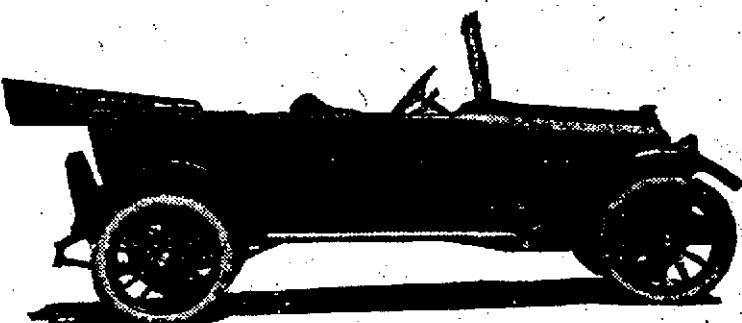

A 6-inch longer wheel base, making it larger and roomier.

Heavier and more rigid frames—6 inches, instead of 3 inches deep—and yet is 50 pounds lighter.

Compensating underslung rear springs—the last word in spring suspension at any price.

A sloped windshield—style of body equal to the highest priced cars.

Friends, the 1918 Maxwell is the best looking, best built car for the money we ever saw!

**THURSDAY'S MEETING.**

Thursday evening next marks the climax of the Liberty loan campaign for Rock county. The demonstration planned in Janesville, with the band of the Great Lakes Training station present, and Martin Gillea of Racine as speaker, the parade in the evening which precedes the evening's program at the Myers theatre, with the various civic organizations in line and the two companies of high school cadets marching for the first time as escort for the band, will mark an epoch in the loyalty campaign of Rock county.

The committee having charge of the program have decided to reserve the down stairs section of the theatre for those who march in the parade, opening the galleries to the general public earlier and the remainder of the down stairs as soon as the marchers are assembled. The public are accordingly invited to be present and doubtless the evening will be one long to be remembered in Janesville.

Rock county always does its share in patriotic efforts and it counts well to the fore in everything where loyalty plays a part. It has sent its sons forth by the hundreds in the present crisis and has given freely of its money to all demands that have been made upon its citizens for the various war activities. It will continue to do so and meanwhile it will not be found wanting when the total of the Rock county Liberty loan is figured up.

Beloit has demonstrated its loyalty and its rich men have come to the front with their liberal loans of money to the government. Many rural communities have done remarkably well and not a city or village that has not played its part. Thursday marks the big demonstration of the whole month's campaign. The music of the young men from the naval training station, men who have enlisted for service on the high seas, the talks by the speakers of the evening will be the climax of the arduous work of the strenuous campaign that business men have given both time and money to most generously.

**THE KID HALLOWEEN.**

Hallowe'en used to be an occasion with little doing except for the romantic girls who went down the cellar stairs backward, looking in a mirror to see their future husbands. Of late years it has grown into a very frisky kid frolic, sometimes resulting in real mischief.

The very timing of October seems to get into the kid bones at this kinky season. The more a man shows annoyance, the more they nestle him. If the youngsters simply ring doorbells and rattle tin cans, it is better to be calmly oblivious. But if you show it bothers you, or above all if you get out and pursue the fleeing lumps, you can see your finish. This is just what they want and there will be no rest for the wicked. People with young heads do not mind a few tricks. When it comes down to ripping blinds off buildings or lugging off gates, the humor of the joke is not fully apparent.

In some places these kid pranks have gone so far that the citizens have gotten up public celebrations to interest the boys and divert their attention. At Fort Worth, Texas, the Fall Festival association holds parades and pageants with four thousand school children. At Allentown, Pa. where a similar celebration is held, the young folks rise up as ghosts and hobgoblins and Charlie Chaplin, and there is a general carnival without mischief.

Most communities haven't the energy for anything so elaborate. The parents in any neighborhood where the kids get too high, can avert much disturbance by giving the kid Hallowe'en party. The boy with his eye on the ice cream is not going to carry off many gobs.

Many gangs of boys start in celebrating Hallowe'en in the early fall as soon as the ice is due to play football after supper and keep it up for a couple of months. Sometimes it comes to the point where one of those celebrated interviews in the woodshed becomes in order.

**POOR COAL.**

In times of stress one weakness after another reveals itself. Now poor coal is being blamed. Railroad men say it won't make steam enough to pull their trains on time. Hence freight congestion, delays to industries, and slow passenger trains.

It is one result from the universal shortage of labor. We used to operate our mines largely with alien help, but this is not coming to us much now. It shows how much we should value the toiling thousands who once were contemptuously called "wops" and "daggers."

The native American is little disposed to remove his cuffs and get down in the bowels of the earth with a pick. We shall have to speak with a little more respect of the laborious foreigners upon whom we depend to keep our wheels moving. Our country needs a great many of these men to do these hard tasks, and they will have to be good to them after the war.

Rock county has a new coal dictator working in conjunction with the state federal administrator. Perhaps now some of that talked of shortage of coal to some consumers will be expected and we may find there is not such a possible scarcity as was anticipated after all. A few sharp lessons and the truth will out and the public will benefit.

Uncle Sam has stepped in and sort of taken the wind out of the sales of the Chicago grocers who charged war time prices upon many of the necessities of life just because they could fool the public. A few radical actions like that and we may expect to be able to live within our incomes after all.

The man who has not yet dug his potatoes now bemoans the fact he did not read the weather report before he

drove to town in his new auto and spent hours waiting time telling friends what he thought of the milk question.

construction work is always left uncompleted work his, always left until the freezing days instead of being done along in June or July when it is warm and balmy.

Among the people who feel perfectly satisfied that they had the worth of their money, are the automobile speeders who get off with the usual small fine.

Having agreed to democratize the German Reichstag, Kaiser Bill generously permits it to adjourn without asking his permission.

Among our women friends who can't buy Liberty bonds, are those who need the money for two or three fall hats.

After the war is over, some of these people who now want to make peace will come forward and claim they won it.

Up to date Russia has gained mighty little by changing its seat of government from a throne to a soap box.

Still, some people believe Webster doesn't know his business.

The cost of living is not so aptitudinous as it was. It is coming down. Listen to this and be glad: There has been a drop of \$2,000 an ounce in radium.

Those who are thinking of laying in a winter's supply of radium in their cellars will find no better time. Personally, we don't need any. The last piece of radium we had, weighing several pounds, we threw at one of the neighbor's cats and we haven't had any around the house since.

A FATHER'S TRIBUTE. I don't know what they'll put him at nor what his post may be. I cannot guess the task that waits for him across the sea. But I have known him through the years, and when there's work to do I know he'll meet his duty well. I'll swear that he'll be true.

I sometimes fear that he may die, but never that he'll shrink. If death shall want him death must go and take him at his work. This splendid sacrifice he makes is for his country's good. And I have many thoughts of fear, but not one fear of him.

The foe may rob my life of joy, the foe may take my all. And desolate my days shall be if he shall have to fall. But this I know what're may be the grief that must face him. Upon his record there will be no blemish of disgrace.

**NO EVENING SCHOOL CLASSES THURSDAY**

Due to Parade and Demonstration Students Vote Not to Hold Classes On Thursday Evening.

Following a vote taken of the students attending the evening school classes under the direction of O. F. Hill at the high school and the Lincoln school buildings on Tuesday evening, it was decided that the classes would not meet on Thursday evening due to the fact that this city will celebrate with a parade and demonstration in the Liberty loan drive. The students expressed themselves as being in favor of calling off the classes so that they could take part in the parade.

Under the circumstances of the case Director C. F. Hill was very glad to dispense with the meeting of the classes as the event is one in which everyone should take part.

Efforts are being made to organize two classes in bookkeeping for the men and women of the city who wish to continue their work along this line. There has been a constant demand for this type of study and with the prospects of securing some capable instructors from the University of Wisconsin to conduct the courses, Director Hill is very anxious to get the classes started. The one class will be for those who have had enough bookkeeping, which would be equivalent to completing the course in the high school. This class will continue the advanced work and will be very beneficial to the young men in the city who are at present working along the bookkeeping lines.

The other course which is planned will be the work in accounting, a subject which is very vital at this time. A competent instructor from the University is a certainty and many have signified their intentions of taking up the work. This course will start with the preliminary accounting work and will make advances throughout the course. The giving of two courses in accounting is planned for one hour being devoted to the principles and the next hour to cost accounting. Both courses may be taken at the same time, thus affording those who wish to spend the time an opportunity of securing the additional information.

The cost accounting course will cover the elements of cost; the terminology of the science; cost conditions in particular industries; the cost of unit, labor and wage systems; distribution of department and general burden; office and selling expenses; installation of a cost accounting system; fitting a cost accounting system into the general accounting system of a business; stores systems; the use of cost findings; in the determination of business policies.

All those who wish to take the course are asked to get into communication with Director C. F. Hill at the Lincoln school. J. B. Read, who has charge of the University extension de-

## EVERY BONDHOLDER IN PARADE THURSDAY

PARADE WILL FORM AT THE Y. M. C. A. AT 7:15—GREAT LAKES BAND WILL MARCH.

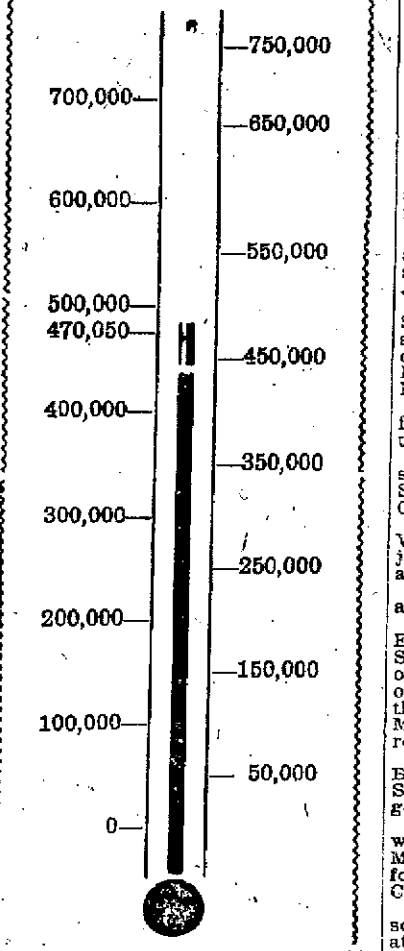

## PURCHASE A BOND NOW

Liberty Loan Subscribers Who Do Not Take Their Share, Fail in Their Duty to Country.

All out for the big parade and demonstration on Thursday evening. Every bond buyer in the city is invited and is expected to take part in the parade which will be formed at the Y. M. C. A. at 7:15. In addition to all the holders of bonds who will be in the parade, the Great Lakes Naval

WE MUST REACH \$750,000

band of thirty-seven pieces, the Boy Scouts of the city and the two companies of high school boys will be in line when the parade starts on its way.

It is a patriotic demonstration and everyone in the city is expected to take part in the parade or else be on the streets to show their loyalty to the government in the big drive in the second Liberty loan campaign. Great plans are being made by the committee in charge to make the affair a success and to show that Janesville is willing to do its share towards winning the war.

Following the parade a meeting will be held in the Myers theater at which Martin J. Gillen of Racine will be the principal speaker. Those who take part in the parade will have the first choice of seats on the ground floor of the theater, and those seats which are not taken when the participants in the parade have taken their places will be opened to the public in general. The balcony and the gallery will be open for the public to accommodate the large crowd which is anticipated.

The Great Lakes naval band will arrive in this city at 6:10 from Milton Junction, where they will take part in a short demonstration, and where W. H. Dougherty of this city will be the principal speaker. Following their arrival they will be given a supper at the Y. M. C. A. auditorium. All workers in the Liberty loan campaign in this city are invited to be in attendance. The invitation has been issued by the local committee and the one hundred and eighty people of Janesville who are doing their share in the patriotic interest are expected to be in line when the start is made.

The parade will form immediately after supper. The formation will start at the Y. M. C. A. building and extend in the direction of West Milwaukee street. Every person, whether man or woman or child, if they have purchased a bond are expected to be in line when the start is made.

Figures just announced by the local committee show that a total of eighteen hundred people in this city have subscribed to the issue, which is a very creditable showing. The total up to the present time is now \$470,000. With the amount already subscribed Janesville should reach the required quota of \$750,000 if the steady drive continues at the present rate.

It has been feared out by someone that to make the aggregate of five billion dollars of second Liberty loan subscriptions means that each person will have to take an amount equal to three per cent of his net worth. Many in Janesville who are able to take large amounts have taken much less than that, and it should be called to their attention that their whole duty is not done until they subscribe in proportion to their means. Compared to the sacrifice of the boys who are now suffering in France, and some of whom will pour out their life blood there for this nation, safe loan or subscription is a very small thing.

The world is not a sacrifice unless you buy until it hurts. The working men of Janesville have responded nobly to the call, but many of the business who have come to town to live are not doing their full share.

The government is going to get this money if it doesn't come by tax subscriptions. It will come by tax subscriptions. It is better to buy a tax-free bond now than to pay more taxes later. As a gift-edge investment, this bond has no equal. It is safer than gold, and it draws the war is in quickness it hard none. One man can carry a gun. If you can't do that you should buy a bond.

The "Mourning Minute" speakers will give talks at the theaters of the city on each evening during the remainder

of the week. The speakers are W. H. Dougherty, Roger Cunningham, Frank H. Jackson, M. O. Monat, Charles L. Lee, M. A. Richardson, Louis A. Avery and Rev. McRae.

The expected Beloit booster run to this city Tuesday evening did not materialize due to the inclement weather which made it impossible for them to come. Beloit will celebrate "Liberty Loan day" at home today so that their expected trip to this city during the campaign will not be hindered.

## THE DAY'S RECEIPTS TO GO INTO BONDS

The Golden Eagle, Levy's, Will Devots The Entire Proceeds of Thursday's Business to the Purchase of Liberty Bonds.

In line with the idea of boosting the local sale of bonds as much as possible on Thursday, which has been set apart as Janesville Liberty Loan Day, Mr. Louis Levy of The Golden Eagle, has declared that the whole amount of cash taken in throughout his store tomorrow will be used for the purchase of Liberty Bonds, in addition to the substantial amounts already subscribed by this firm. The thought is unique and novel and will no doubt result in a splendid contribution to this worthy cause.

The plan had the approval of the Rock County Liberty Loan Committee and Mr. M. G. Jeffris chairman of this committee is heartily in favor of the idea and the assistance given in helping to carry out the plan. The required amount of Rock County's quota to the Second Liberty Loan of 1917.

## MISS TESSIE REGAN MARRIED IN BELOIT

United To John William Lathers At St. Thomas's Church In Beloit This Morning—Well Known Here.

A pretty wedding was solemnized this morning, at St. Thomas's Church, in Beloit, Wis., the marriage of Miss Tessie Regan, daughter of Mr. and Mrs. J. H. Lathers of Beloit, to John William Lathers of Beloit. The bride was read by Father James Ryan, after which the bride and groom were entertained at a wedding breakfast at the Hotel Hilton. Miss Lucy Schaad attended the bride and Eugene Lathers, brother of the groom, acted as best man.

The bride was attractively gowned in white georgette crepe with bridal veil and carried a shower bouquet of lilies of the valley and roses. Miss Lathers carried a train of white silk and lace.

Mrs. Lathers is a popular young lady, who by her pleasing personality during her several years' connection with the Gazette has made many friends in this city. Mr. Lathers is a young man well known and highly respected in Beloit and vicinity.

The wedding was officiated by Mr. Lathers who will reside in Beloit and will be at home after December 1st.

## CHANCE TO SEND TO SOLDIERS A SMOKE

The letter from E. H. Van Calder, an old Rock county man now living in France speaks of his desire for American cigarettes and his local relatives are forwarding through the Gazette a sum of money to "Our Boys in France" to buy "Camels" and "New Yorks." Those who wish to contribute to this particular cause can do so by leaving their money at the Gazette office at once. The remittance will be sent off to New York Friday the 26th.

The Gazette expects to act for the tobacco fund for our boys and will announce the detail of the service in a few days.

## OBITUARY.

Miss Mary Ryan. Friends of Miss Mary Ryan received the sad notice today of her death in Chicago. She passed into the world beyond at 2:30 this morning at the home of her sister, Miss Ryan had been a life-long resident of Delavan and the notice of her death was a shock to her many friends. She had been sick for two years. She leaves to mourn her loss four sisters, Mrs. Martin Riley of Chicago, Mrs. J. Fleming Taylorville, Illinois, Mrs. William Doyle of Delavan, and Mrs. Wm. Deane of Richmond; also two brothers, John Ryan of Hart Prairie and William Ryan of Lyman, Wisconsin.

Joseph Fraunfelder. The remains of Joseph Fraunfelder will be laid to rest in their last resting place at the Oak Hill cemetery tomorrow morning. The funeral services will be held at nine o'clock at the St. Patrick's church. Joseph Fraunfelder was the eldest son of John and Mrs. Fraunfelder of 123 North Pearl street. He died Tuesday morning after a lingering illness of seven months.

## WHAT CANON CARNEGIE HEARD

Good Story Concerning the New Chaplain of the House of Commons.

A good story is told concerning Canon Carnegie, the new chaplain of the house of commons. It relates to the time when he was working as a curate in the East end of London.

He was preaching to a congregation largely composed so far as the men were concerned of water-laborers, and his subject was fasting.

"Of course," he said, "many of you men earning your living as you do by hard work, cannot be expected to deny yourself food. But you can fast in another way, and I do urge you to do this—spare yourself the use of strong language."

After the sermon, Mr. Carnegie was passing out of the church when he overheard one of his late congregation remark: "That was a good sermon—the person preached, Bill."

"Good," was Bill's too emphatic rejoinder.

## CONVENTION OF THE DISTRICT W. R. C. HELD

The election of officers and an interesting program were features of the District convention of the Women's Relief Corps held in this city on yesterday. The meeting was held in the parlors of the Baptist church and the first session was called at eleven o'clock, the acting president of the convention, Mrs. C. F. Lester being in charge.

An inspection of the local corps by Mrs. Grace Brown of Ft. Atkinson was held at this time and the installation of one new member, Mrs. Eva Downs of this city, was accomplished. The Sunday school room where the sessions were held was decorated with vases of chrysanthemums, large flags and autumn foliage. The charter of the corps was hung in a conspicuous place and a beautiful new altar cloth, composed of strips of red, white and blue ribbon was much admired. There were large delegations present from the organization in this district and the following ladies who were chief officers in their local corps, and were present: Mrs. Owen of Jefferson, Mrs. Orrie Osborn, Milton; Mrs. Lena Dehman, Edgerton; Mrs. T. H. Durbin, Whitewater, and Mrs. Mary Heitz of Ft. Atkinson. Beloit is not included in this district but several guests were present from that city to enjoy the convention. Mrs. C. F. Lester, District Commander, Mrs. Emma E. Grinnell, the district secretary was Mrs. A. U. Glenn and the treasurer, Mrs. Brown of Ft. Atkinson. Lunch was served during the noon hour at long tables spread in the church parlor. About one hundred ladies were accommodated, the King's Daughters, whose president is Mrs. S. L. Jones, being in charge of the menu.

The afternoon session was called at two o'clock and election of officers for the ensuing year was the main feature of business to be transacted. The officers elected were: President, Mrs. Owen of Jefferson, (she appoints the secretary); Vice President, Mrs. J. H. Lathers of Beloit; Treasurer, Mrs. Grace Brown of Ft. Atkinson. The program of the afternoon included numbers furnished by several of the different organizations represented. The opening exercises were conducted by Mrs. Lester, and the contribution of the local corps under the direction of the patriotic instructor, Mrs. Ada Walker, followed. Mrs. J. H. Lathers, of Beloit, Clara Schwarz and a vocal selection by Mrs. S. F. Richards. Jefferson put on a very elaborate drill by a large team of ladies which was well executed.

Ft. Atkinson was represented by a reading from one of its members. White-water had a funny stunt given by "Mirandy Jones" and Milton Junction ladies sang a duet, and one of their number sang the pathetic old time ballad, "For He's Drafted into the Army." About 100 members were present during the afternoon from outside the city and about 40 from the local organization.

The next place of convention will be Jefferson.

## ART LEAGUE SOCIAL IS PLANNED FOR FRIDAY

A pleasant social occasion has been planned for the members of the Art League for Friday of this week at the home of Mrs. J. F. Pemberton on Jackson street. A one o'clock luncheon will be served by the social committee, headed by Mrs. J. P. Thorne. The other members of the committee are Mrs. J. H. Lathers, Mrs. O. Howe, Mrs. H. Murdoch and Mrs. C. A. Sanborn, under whose direction an elaborate menu is being prepared. The committee wish it to be known that all members are expected to bring their dishes, silver and napkins as usual. A musical program has been prepared for the afternoon and a guest of honor, Mrs. C. C. Colony of Evansville, president of the district federation is expected to be present. One of the features of the afternoon will be reports and interesting details of the recent convention held in Madison. The local delegates present were Mrs. Geo. Fifeled, Mrs. E. F. Woods, Mrs. J. F. Pemberton, Miss Charlotte Prichard and Mrs. Abbie Helms.

They will each have a part of the convention program to discuss. New members are especially urged to attend this social of the Art League, that they may become better acquainted with the ladies who belong to it.

## A MIGHTY ACHIEVEMENT

REMOVES MOUNTAIN BARRIERS—CONSERVES EARTH'S TREASURES.

Mighty indeed—for not only alone has the "Milwaukee Road" by its electrification across the Continental Divide (now being extended through the Cascade Range) leveled the mountains as a barrier to transportation, but it has also released great stores of earth's treasured energy for other much-needed purposes.

By utilizing the hitherto wasted power of mountain waterfalls to move the heavy steel trains across the mountains of the northwest, there is conserved annually over a quarter of a million tons of coal, over a half million barrels of oil, and the thousands of cars necessary to transport this fuel are freed to serve other pressing needs of transportation.

In this world crisis, when every resource of the nation is used to its utmost, this mighty achievement takes on extreme importance. When next you journey to the cities of the Pacific Northwest travel the smooth, smokeless, clatterless electric way—via the Chicago, Milwaukee & St. Paul Railway.

## AMERICAN AVIATORS ARE ENVIED BY ALL

(United Press Staff Correspondent.)  
American Field Headquarters,  
France, Oct. 23 (by mail).—If I were  
only ten or fifteen years younger I'd  
certainly go in for flying.

The colonel was standing on the  
lawn in front of the American artil-  
lery barracks, peering through his  
field glasses at one of his young lieutenants  
a mile overhead. Youth has the  
call in the air service, junior officers  
"will fly" according to orders.  
Men like the colonel, he wished he  
could lob off ten years of his age, will  
have to go on in this war directing  
their guns from the ground, while the  
best of our youngsters dodge shells  
among the clouds.

Flying came near raising Cain with  
the order of things in the artillery.  
Most of the younger officers applied  
for instructions in flying the very day  
facilities were placed at our disposal.  
A few others were doubtful about  
giving up the actual guns, but as a  
rule one flight was enough to make  
them aviation fans.

This morning, as the colonel followed  
the order of things in the artillery,  
the American flyer sailed up and  
down the artillery range learning the  
game he will have to play at the front.  
He kept up high to be well over the  
range of shellfire and the wireless  
station on the ground was getting his  
sense, technical sentences about this  
shell and that one hitting the target  
or breaking wild.

Another aeroplane jumped into the  
air over the flying grounds. It steer-  
ed over the barracks, past the flaming  
guns and the sweating gunners skim-  
med over the indolent sausage ba-  
loon and disappeared on a mapping  
tour.

Half an hour later he returned, he  
scrambled out of the cockpit like an  
awkward young bear, bundled up in a

carry it home. Even a loafer has all

one-piece fur suit, masked with with  
goggles and crowned with a tan hel-  
met.

"Be sure to look at the river," he  
advised, "it's a wonderful sight from  
up there." We went about twenty  
miles up-stream on this mapping stunt.  
"He was an amateur flyer back home  
and can handle a machine alone—if  
they'll let him. Some of his brother  
lieutenants saw him loop-the-loop to  
prove it, but he doesn't have a chance  
to do stunts at this camp. The New

tenant skinned off the flying suit and  
handed it to me.

In a few minutes I was streaking  
across France straight at the sun.  
The pilot banked a turn and I looked  
straight down that wing, wondering  
whether we'd land on the barracks  
or in a gunpit. The guns were there,  
but they couldn't be seen through  
the haze nearly where to look for them.  
So much for the French artists who  
paint on the camouflage.

Somehow we didn't fall, and the  
ride began to be a pleasure. We sail-  
ed over the river and sailed back  
again; we dipped low across the red  
roofs of the barracks again, and then  
jumped downward a thousand feet.  
Then the pilot pulled some jiggers  
that brought us down with a gentle  
bounce in front of the hangers.

In twenty minutes I had learned  
the thrill that makes our young artil-  
lery officers go in for the most  
dangerous game in the world.

## History of the Bracelet.

There is nothing very new-fashioned  
about the bracelet. According to ar-  
cheologists it was first invented as a  
badge of insanity. In time it was used  
in Eastern climes as a capital means  
of investing money.

## News Notes from Movieland

BY DAISY DEAN

If the boys in the trenches "over  
there" are cold this winter it will not  
be Pauline Frederick's fault. Mrs.  
Frederick, who recently took her sec-  
ond excursion into the matrimonial  
field, devotes most of the time which  
is not consumed in starring in pic-  
tures to knitting for the soldiers. Her  
most recent startling vehicle is an  
adaptation of Henry Arthur Jones'  
well known play, "Mrs. Dane's De-  
fense."

## DO YOU REMEMBER?

## AMUSEMENTS

(Notices furnished by the theatres.)

**Myers Theatre.**  
In these days of problems and anx-  
iety, plays without humor seem to  
pull upon the patrons of the theatre  
and it is indeed a pleasure to enjoy  
a hearty laugh. It is this tendency  
to the Myers Theatre, Sunday, Oct.  
27th. Its producers proudly assert  
on all their advertising, that this is a  
rollicking and hilarious joy ride, and  
all their advance publicity claims  
that it is a play that appeals to our  
better nature, and serves to make the  
evening a very happy one. It is true  
that the plays which have long lived  
in theatres, are plays of this kind and  
from comments in press of other cit-  
ies, this seems to be one of the big-  
gest successes of the season, both ar-  
tistically and financially.

**A Soldier's Bride.**  
Fred Flock, Jr. and Al Lever Musi-  
cal comedy de luxe production "A Sol-  
dier's Bride," will be disclosed at the  
Myers Theatre, Sunday, Oct. 28, mat-  
inee and night, as given in New York  
all last season. Its melodies have  
been hummed, whistled, victrolated,  
and danced everywhere. Mr. Harry  
Stewart who came into popularity  
through "The Girls of America" is the  
composer. The book is also by Mr.  
Stewart and it was so adroit in devel-  
opment, that a flood of commissions  
poured in upon him. Now his name  
is attached to all the musical plays  
of Flock and Lever, but his "A Sol-  
dier's Bride," was his most inspira-

There are wonderful scenes of love  
lines and artistic blendings of color  
and shadings in picturesque costum-  
ing. The story of the love of a young  
girl for her sweetheart who has en-

told.

# WHAT A LIBERTY BOND IS

THERE'S NOTHING HARD TO  
UNDERSTAND ABOUT A UNI-  
TED STATES GOVERNMENT  
BOND.

There's nothing mysterious or  
complicated. And all these LIB-  
ERTY BONDS that hundreds of  
thousands of people all over  
America are buying now are sim-  
ply United States Government  
Bonds to which the Government  
has given the name "Liberty  
Loan." Below are given the im-  
portant points concerning the  
U. S. Government Bonds so that  
everyone may clearly and plainly  
understand just what they are.

**THE PROMISE OF THE U. S. GOVERNMENT—**A U. S. Gov-  
ernment Bond is an official prom-  
ise and agreement by the United  
States of America to pay back to  
you the money which you have  
paid for your Bond, and also to  
pay you interest on that money  
as long as you keep the bond. In  
the case of this present issue of  
U. S. Government Liberty Bonds  
the rate of interest is 4% a year.

**THE QUESTION OF SAFETY—**  
Ever since the United States Gov-  
ernment was first established,  
United States Government Bonds  
have been considered by business  
men, bankers and investors of  
every sort as the safest form of  
investment in the world. There  
is no possible chance of loss, for  
every bond is guaranteed by the  
United States of America. Every  
bond is guaranteed by all the  
wealth, all the land and all the  
money in the whole United States.

**THE PROFITS—**These U. S. Lib-  
erty Bonds will pay you interest  
at the rate of 4% a year, which is  
1 1/2% more than you get on postal  
savings. And besides that they  
are free from all normal taxation,  
so that in reality your interest of  
4% is better than 5% on an or-  
dinary investment on which you  
have to pay taxes. Moreover, if  
the Government should issue a  
new series of bonds later, on  
which 5% or 6% interest would  
be paid, then you can exchange  
the bonds you purchase now for  
bonds of the new series and get  
the higher rate of interest.

**INCREASE IN VALUE—**U. S.  
Government Bonds have always  
increased in value soon after be-  
ing issued, because of the enor-  
mous demand by investors, bank-  
ers, and financiers who want to  
invest their money where it will  
be absolutely safe. The \$100 bonds  
the Government issued at the time  
of the Spanish-American war sold  
a short time later for \$110 and  
\$111. In other words those  
people who bought them for \$100  
at the start were able to sell them  
at 10% to 11% more than they  
paid for them and had their inter-  
est besides. It can reasonably  
be expected that this present is-  
sue of Liberty Bonds will also in-  
crease in value.

**YOU CAN BORROW MONEY ON  
THEM—**If you should need mon-  
ey at any time, you can take your  
Liberty Bonds to any bank and  
borrow money on them. Bankers  
consider U. S. Bonds the best

possible security you can give, and  
are glad to loan money on them.

**YOU CAN SELL THEM—**U. S.  
Government Bonds can always be  
turned into cash if any emergen-  
cy should arise in which you  
should need money quickly. You  
can sell them at any time, for they  
are considered as good as gold it-  
self. You will never be "broke"  
if you own a U. S. Government  
Liberty Bond. And your money  
is not tied up where you can't get  
at it.

## Beyond the Frontier

by RANDALL FARRISH

A Romance of Early Days in the Middle West

Author of "Keith of the Border," "My Lady of Doubt," "The Maid of the Forest," etc.

"Not one lives," he said soberly.

"And there are men, women, and children there."

"The story is one mostly told—in attack at daylight from the woods around. There has been no fighting; a massacre of the helpless and unarmed."

"But who did such deed of blood?"

"Tis the work of the Iroquois; the way they sculpted folk that, and besides I saw other signs."

"The Iroquois," I echoed incredulously, for that name was the terror of my childhood. "How came these savages so far to the westward?"

"There war parties range to the great river," he answered. "We followed their bloody trail when first we came to this valley. It was to gain protection from those riders that the Algonquians gathered about the fort. We fought the Iroquois twice, and drove them back, yet now they are here."

again. Come, Adele, we must return to the canoe, and consult with Barbeau. He has seen much of Indian war."

The canoe rode close in under the bank, Barbeau holding it with grasp on a great root. He must have read in our faces some message of alarm, for he exclaimed before either of us could speak:

"What is it—the Iroquois?"

"Yes; why did you guess that?"

"I have seen signs for an hour past which made me fear this might be true. That was why I held the boat so close to the bank. The village has been attacked."

"Ay, surprised and massacred; the ground is covered with the dead, and the tepees are burned. Madame is half crazed with the shock."

Barbeau took no heed, his eyes scarce glancing at me, so eager was he to learn details.

"The Iroquois were in force, then?"

"Their moccasins tracks were everywhere. I could not be sure where they entered the village, but they left by way of the Fox. I counted on the sand the imprint of ten canoes."

"Deep and broad?"

"Ay, war boats; 'tis likely some of them would hold twenty warriors; the beasts are here in force."

"It was all so still, so peaceful about us that I felt dazed, incapable of comprehending our great danger. The river swept past, its waters murmuring gently, and the wooded banks were cool and green. Not a sound awoke the echoes, and the horror I had just witnessed seemed almost a dream."

"Where are they now?" I questioned faintly. "Have they gone back to their own country?"

"Small hope of that," answered D'Artigny, "or we would have met with them before this, or other signs of their passage. They are below, either at the fort, or planning attack on the Indian villages beyond. What think you, Barbeau?"

"I have never been here," he said slowly, "so cannot tell what chance the red devils might have against the white men at St. Louis. But they are below us on the river, no doubt of that, and engaged in some hell act. I know the Iroquois, and how they conduct war. 'Twill be well for us to think it all out with care before we venture farther. Come, D'Artigny, tell me what you know—is the fort one to be defended against Iroquois raiders?"

"'Tis a strong built on a high rock, and approachable only at the rear. Given time, they might starve the garrison, or drive them mad with thirst, for I doubt if there be men enough there to make sortie against a large war party."

"But the Indian allies—the Algonquians?"

"One warwhoop of an Iroquois would scatter them like sheep. They are no fighters, save under white leadership, and 'tis likely enough their villages are already like this one yonder, scenes of horror. I have seen all this before, Barbeau, and this is no mere raid of a few scattered warriors, seeking adventure and scalps; 'tis an organized war party. The Iroquois have learned of the trouble in New France, of La Salle's absence from this valley; they know of the few fighting men at the Rock, and that De Tonty is no longer in command. They are here to sweep the French out of this Illinois country, and have given no warning. They surprised the Indian villages first killed every Algonquin they could find, and are now besieging the Rock. And what have they to oppose them? More than they thought, no doubt, for Cassion and De la Durantie must have reached there safely, yet at the best, the white defenders will scarcely number fifty men, and quarreling among themselves like mad dogs. There is but one thing for us to do, Barbeau—reach the fort."

"Ay, but how? There will be death now, haunting us every foot of the way."

D'Artigny turned his head, and his eyes met mine questioningly.

"There is a passage I know," he said gravely, "below the south bank yonder, but there will be peril in it—peril to which I dread to expose the lady."

I stood erect, no longer paralyzed by fear, realizing my duty.

"Do not hesitate because of me, monsieur," I said calmly. "French women have always done their part, and I shall not fail. Explain to us your plan."

### CHAPTER XVI.

The Words of Love.

His eyes brightened, and his hand sought mine.

"The spirit of the old days; the words of a soldier's daughter, hey, Barbeau!"

"A La Chosayne could make no other choice," he answered joyfully. "But we have no time to waste here in complicity. You know a safe pas-

sage, you say?"

"Not a safe one, yet a trail which may still remain open, for it is known to but few. Let us aboard, and cross to the opposite shore, where we will hide the canoe, and make our way through the forest. Once safely afoot yonder, I will make my purpose clear."

A dozen strokes landed us on the other bank, where the canoe was drawn up, and concealed among the bushes, while we descended a slight declivity, and found ourselves in the silence of a great wood. Here D'Artigny paused to make certain his sense of direction.

"I will go forward slightly in advance," he said, at last, evidently having determined upon his course.

"And we will move slowly, and as noiselessly as possible. No one ever knows where the enemy are to be met with in Indian campaign, and we are without arms, except for Barbeau's gun."

"I retain my pistol," I interrupted.

"Of small value since its immersion in the lake; as to myself, I must trust

along the river appeared masses of isolated rock, and these we skirted closely, always in the shadow and silence of great trees. Within half an hour we had emerged from the retarding underbrush, and came out into an open wood, where the walking was much easier.

The sun had not entirely disappeared when we emerged from the dark wood shadows into a narrow, grassy valley, through which flowed a silvery stream, not broad, but deep. Assured that this must be the water we sought, I sank to the ground, eager for a moment's rest, but D'Artigny, tireless still, moved back and forward along the edge of the forest to assure himself of the safety of our surroundings. Barbeau joined him, and questioned.

"We have reached the trail?"

"Ay, beside the shore yonder; see you anything of Indian tepees across the stream to the left?"

"Below, there are wigwags there just in the edge of the grove. You can see the outlines from here; but I make out no moving figures."

"Deserted then; the cowards have run away. They could not have been attacked, or the tepees would have been burned."

"An Algonquin village?"

"Mamam. I had hoped we might gain assistance there, but they have either joined the whites in the fort, or are hiding in the woods. 'Tis evident we must save ourselves."

"And how far is it?"

"To the fort? A league or two, and a rough climb at the farther end through the dark. We will wait here until after dusk, eat such food as we have without fire, and rest up for a bit of venture. The next trip will test us all, and madame is weary enough already."

"An hour will put me right," I said, smiling at him, yet making no attempt to rise. "I have been in a boat so long I have lost all strength in my limbs."

"We feel that, all of us," cheerily, "but come, Barbeau, unpack, and let us have what cheer we can."

I know not when food was ever more welcome, although it was simple enough to be sure—a bit of hard cracker, and some jerked deer meat washed down by water from the stream—yet hunger served to make these welcome. The loneliness and peril of our situation had tendency to keep us silent, although D'Artigny endeavored to cheer me with kindly speech, and gave Barbeau careful description of the trail leading to the fort gate. It ought happened to him we were to press on until we attained shelter. The way in which the words were said brought a lump into my throat, and before I knew the significance of the action, my hand clasped his. I felt the grip of his fingers, and saw his face turn toward me in the dusk. Barbeau got to his feet, gun in hand, and stood shading his eyes.

"I would like a closer view of that village yonder," he said, "and will go down the bank a hundred yards or so."

"Twill do no harm," returned D'Artigny, still clasping my hand. "There is time yet before we make our venture."

He disappeared in the shadows, leaving us alone, and I glanced aside at D'Artigny's face, my heart beating fiercely.

"You did not like to hear me speak as I did?" he questioned quietly.

"No," I answered honestly, "the thought startled me. If anything happened to you, I—I should be all alone."

He bent lower, still grasping my fingers, and seeking to compel my eyes to meet his.

"Adele," he whispered, "why is it necessary for us to keep up this masquerade?"

"What masquerade, monsieur?"

"This pretense at mere friendship," he insisted, "when we could serve each other better by a frank confession."

"I found little difficulty in following my leader."

to my knife. Madame, you will follow me, but merely close enough to make sure of your course through the woods, while Barbeau will guard the rear. Are both ready?"

"Perhaps it might be well to explain more clearly what you propose," said the soldier. "Then if we become separated, we could figure out the proper direction to follow."

"Not a bad thought, that. It is a rough road ahead, heavily wooded, and across broken land. My route is almost directly west, except that we bear slightly south to keep well away from the river. Three leagues will bring us to a small stream which empties into the Illinois. There is a faint trail along its eastern bank, which leads to the Rock, where it is possible for one knowing the way to attain the palisades of the fort. If we can attain this trail before dark we can make the remaining distance by night. Here, let me show you," and he drew with a sharp stick a hasty map on the ground. "Now you understand; if we become separated, keep steadily westward until you reach a stream flowing north."

In this order we took up the march, and as I had nothing to fear except a blanket, which I twisted about my shoulders, I found little difficulty in following my leader. At first the underbrush was heavy, and the ground very broken, so that oftentimes I lost sight entirely of D'Artigny, but as he constantly broke branches to mark his passage, and the sun served as guidance, I had small difficulty in keeping the proper direction. To our right

There is a faint trail along its eastern bank, which leads to the Rock, where it is possible for one knowing the way to attain the palisades of the fort. If we can attain this trail before dark we can make the remaining distance by night. Here, let me show you," and he drew with a sharp stick a hasty map on the ground. "Now you understand; if we become separated, keep steadily westward until you reach a stream flowing north."

In this order we took up the march, and as I had nothing to fear except a blanket, which I twisted about my shoulders, I found little difficulty in following my leader. At first the underbrush was heavy, and the ground very broken, so that oftentimes I lost sight entirely of D'Artigny, but as he constantly broke branches to mark his passage, and the sun served as guidance, I had small difficulty in keeping the proper direction. To our right

along the river appeared masses of isolated rock, and these we skirted closely, always in the shadow and silence of great trees. Within half an hour we had emerged from the retarding underbrush, and came out into an open wood, where the walking was much easier.

The sun had not entirely disappeared when we emerged from the dark wood shadows into a narrow, grassy valley, through which flowed a silvery stream, not broad, but deep. Assured that this must be the water we sought, I sank to the ground, eager for a moment's rest, but D'Artigny, tireless still, moved back and forward along the edge of the forest to assure himself of the safety of our surroundings. Barbeau joined him, and questioned.

"We have reached the trail?"

"Ay, beside the shore yonder; see you anything of Indian tepees across the stream to the left?"

"Below, there are wigwags there just in the edge of the grove. You can see the outlines from here; but I make out no moving figures."

"Deserted then; the cowards have run away. They could not have been attacked, or the tepees would have been burned."

"An Algonquin village?"

"Mamam. I had hoped we might gain assistance there, but they have either joined the whites in the fort, or are hiding in the woods. 'Tis evident we must save ourselves."

"And how far is it?"

"To the fort? A league or two, and a rough climb at the farther end through the dark. We will wait here until after dusk, eat such food as we have without fire, and rest up for a bit of venture. The next trip will test us all, and madame is weary enough already."

"An hour will put me right," I said, smiling at him, yet making no attempt to rise. "I have been in a boat so long I have lost all strength in my limbs."

"We feel that, all of us," cheerily, "but come, Barbeau, unpack, and let us have what cheer we can."

I know not when food was ever more welcome, although it was simple enough to be sure—a bit of hard cracker, and some jerked deer meat washed down by water from the stream—yet hunger served to make these welcome. The loneliness and peril of our situation had tendency to keep us silent, although D'Artigny endeavored to cheer me with kindly speech, and gave Barbeau careful description of the trail leading to the fort gate. It ought happened to him we were to press on until we attained shelter. The way in which the words were said brought a lump into my throat, and before I knew the significance of the action, my hand clasped his. I felt the grip of his fingers, and saw his face turn toward me in the dusk. Barbeau got to his feet, gun in hand, and stood shading his eyes.

"I would like a closer view of that village yonder," he said, "and will go down the bank a hundred yards or so."

"Twill do no harm," returned D'Artigny, still clasping my hand. "There is time yet before we make our venture."

He disappeared in the shadows, leaving us alone, and I glanced aside at D'Artigny's face, my heart beating fiercely.

"You did not like to hear me speak as I did?" he questioned quietly.

"No," I answered honestly, "the thought startled me. If anything happened to you, I—I should be all alone."

He bent lower, still grasping my

## EVANSVILLE HAS SERIOUS PROBLEM NEEDING SOLUTION

Opening of Theatre for Picture Shows  
Sunday Night Causes General  
Upheaval.

(By Peter Fry.)

Evansville, Wis., Oct. 24.—When Manager McGee opened the doors of the opera house, for moving pictures Sunday night, three weeks ago, he started a turmoil that will not still. Even if his pictures did contain a film shot out by the United States government on soldier life and the regular films were strictly religious in nature, his venture roused a tempest of protest.

Mr. McGee did not charge any admission for the show. He had the honorable Alexander Richardson, the federal representative in Evansville, talk on the government films and announced that the silver collection taken up during the performance would go towards a fund for all the soldier boys of Evansville now enlisted in the government service. Still it was the opening of a wide open town Sunday and objections were raised.

Immediately all the pastors in the city, with the exception of the Episcopal and Catholic churches, met and marched in a body to the council and demanded the Sunday exhibits be forbidden. The council listened to the arguments and addressed, probably the most important of the week, and then tabled the resolution for further consideration. Up to the present time it has not been seriously considered in open session.

Then Robert Hartley, one of the leaders of the opposition to the Sunday opening, produced a list of the persons who attended the show and represent some eight hundred parishioners, were most insistent in closing the theatre Sunday night. They firmly believe it is the opening wedge for a wide open town. Leading ladies of the city also objected in one with whom I talked said: "It is just a starting point. True, no admission is exacted, but everyone is expected to pay something who attends and as there are six nights when they can go to the movies, why add a seventh?"

Apparently a special committee (I could not find out who composed it exactly, so will use no names) that visited a Janesville firm of lawyers, found scant comfort in their thought of legal objection. However, public sentiment was aroused and it was so insistent that on Sunday night last it took the form of a mass church meeting at the Methodist church. Rodgers with the announcement, "Shall we let down the bars and have Evansville a wide open town? were distributed and the church was crowded. Those who did not attend this service went to the movies.

W. W. Gillies, Mrs. J. A. Sharman, Mrs. O. C. Collier and members of the clergy were the speakers and they clearly demonstrated their opposition to the idea of making Evansville a wide open town or even permitting the opening wedge to be driven home. "First we have free movies and then we will have pool rooms and billiard halls and all sorts of amusement places open on the Lord's day," was the expression of one business man I talked with.

In fact, one does not want to talk pro or con on the subject as the citizens are apparently much aroused over the entire situation. Meanwhile the city is made for another movie show next Sunday night and then the fireworks may start.

Both sides apparently have arguments in their favor, but the question still remains unsettled up to the present writing.

## Rock County Soldiers Boys of Company C. National Army Need Money

Every member of Company C, 331st Machine Gun Company, is a Rock county boy.

Every Rock county man, woman or child is proud of its boys and the fact that they will represent the county in the country's cause of justice.

The government furnishes the boys with food, clothing, shoes, etc., but if they have any of the games, or entertainment devices, any athletic equipment, the purchase price must come out of their pockets or yours, and mine.

The Company Fund takes care of these necessary items, and you and I surely want the boys to be comfortable and occupied through the long dragging hours.

Will you give something to build the Company Fund and keep it going?

Sure you will.

Fill in the blank and send today to the Gazette with your contribution to Treasurer, Fund for Company C, 331st Machine Gun Company.

Enclosed ..... my Company C Fund contribution  
I will also help support the fund in future as need be.

## HITTING THE MARK HAS GROWN INTO A HABIT WITH GUNNERS OF U. S. NAVY

This photograph made during recent target practice shows a shell from one of the big guns of a ship of the Atlantic fleet hitting the water between two targets. The targets are separated a distance about equal to the length of a battleship and a shot between them is registered as a "hit." The Jacky in the stern of the boat is wig wagging the result of the shot to the judges on the bridge.

## Whitewater News

MORRIS MILLER

Owner John Savage of the Japlin Western League club is quoted as saying that the talk of a split in the American Association that would permit the cities of the western end of the circuit to merge with the best of the cities of the eastern end is all bunk. He says they are always talking and never getting anywhere with it. He might also have stated that George Tobean almost sold the Kansas City club each fall, but never quite makes it.

President Elliott of the Brooklyn club, who gave \$200 to the fund raised by Brooklyn players for members of the team who should be drafted into the army, has announced in addition that Brooklyn players who are in the army next year will receive half pay from the club during the playing season and that if any player is incapacitated by injuries while in the army so that he can not return to baseball he will be provided by the club. Now let us see how many Brooklyn players will enlist.

No wonder the Three-I league disbanded in July. The wonder is that Al Tierney, its president, stood the end as long as he did. Only three cities remained after the assessment levied at the start of the season to start things. Three cities, Moline, Alton and Quincy, paid in practically none of the 10 per cent on game receipts for league expenses and even Bloomington did not remit for its last sixteen games. It appears also that not a club put up the guarantee supposed to be required under national association regulations.

According to speculation indulged in at St. Joseph if the western cities of the American Association call on several cities of the Western league to make a new association circuit, then the Western name will be bestowed on a new circuit to include several Kansas, Oklahoma and Missouri cities. W. W. Dickerson as president, while Tom Hickey would continue as head of the circuit that would retain the name of the American Association. Incidentally some have labeled the new international association that has been proposed the Union league.

When the Bull Durham Tobacco company at St. Louis city series game presented Third Baseball Douglass of the Cardinals with a \$50 check for "killing the bull," it had paid out a total of \$500 on the season, representing 101 times that batters in various leagues had driven a fair hit against the bull sign in over ten ball parks, major and minor. Batted but hit the bull in Brooklyn on May 25, but by some oversight his check was delayed. A total of fourteen hits against the bull were registered in National League parks the past season. Only four of the Phillies registered four of them.

In Chicago the Baseball Writers' association for the sports writers decided what action should be taken with reference to players and managers writing world's series guff for the press, but no action was taken. President Johnson said he was governed by the desire of the writers. The writers passed the buck. Eddie Collins was the only American league player to violate Mr. Johnson's order against writing world's series guff. He had written his own stuff and that he had made a contract in advance. It remains to be seen what, if any, punishment will be inflicted on him.

The guessing contest as to whether Miller Huggins would continue to manage the St. Louis Cardinals was prolonged when President Roosevelt of the Cardinals went to New York to see the world's series games and attend a baseball conference without having come to any final decision. In the meantime, however, rumor mongers were not idle and continued to connect Huggins with an American league team for next year. President Roosevelt was quoted as saying that he believed Huggins had decided to cast his lot with Banjo Johnson. A new feature of the reports had Huggins going to Detroit and Hugh Jennings going to the Yankees.

## ROCK COUNTY BOYS ARE HAPPY DOWN AT ROCKFORD CAMP

Company C, 331st M. G. Co., Preliminary steps toward securing a company fund for Company C, 331st Machine Gun Battalion, have been taken and an advisory committee to confer on the subject of amusement for the men during leisure hours has been appointed. The committee is composed of Will McIntosh, Edgerton, Robert Conway, P. D. Scottford and Frank L. Gleason, Janesville, and Paul K. Koval, Oronoco, as members. These men will plan pastimes for the men after drill and Saturday afternoons and Sundays. Among the suggestions that have been favorably received are the organization of a glee club and orchestra. A piano has already been rented and with the splendid material in the company, it is thought that a twelve piece orchestra can be organized. The company boasts of a number of good singers.

Another field of activity suggested by the committee is the securing of athletic equipment and the organization of football and basketball teams. The company already has a small lot of athletic equipment, but nothing like enough. It may be appropriate to explain that the company fund is recognized as an official adjunct to a military organization; that its handling and administration is provided for in army regulations, which provide that it can only be used for the benefit of the whole company. Contributions from outside sources may be received, and it is hoped that the Rock county home folk will help the boys. The fund started in addition to uses such as have been mentioned, one of the purposes of the company fund is to amuse the men with occasional delicacies which the quartermaster department does not supply.

COMPANY NOTES.  
The comfort bags sent to the Janesville boys have been received and distributed. The various articles are being put to good use, especially the pipes, tobacco, shaving mirrors and tooth paste. The needles and the sewing kits are also proving popular. Pie was on the menu last night for the first time since the second and third increments arrived in camp. The cooks prepared a liberal supply so that no one was left out. The bill of fare also included macaroni and cheese, potatoes, tea, bread and oleomargarine. At dinner mess consisted of soup, beef stew, potatoes and bread. The breakfast bill was steak, potatoes, oatmeal and milk and coffee. Supper is not usually as sumptuous as last night but on the whole the meals are good and the cooking excellent.

The boys in Co. C are wondering what kind of smoke the Chicago paper writers use who tell about some of the wonderful menus being served. They haven't been able to buy tobacco for the cigars which will make them as turkey with cranberry sauce, even in their dreams. The more sensible ones are inclined to the belief that such fare would be rather hard to digest with the Oronoco and catfish which make up the daily schedule. The food served is wholesome and, on the whole, excellently cooked. Such delicacies as cakes, jellies, puddings, etc., received from the home folks are appreciated, but as a rule the amounts are not sufficient to leave any injurious effects. The fare the government furnishes is a working ration for working men, while the things that are received from the outside serve to satisfy the sweet tooth.

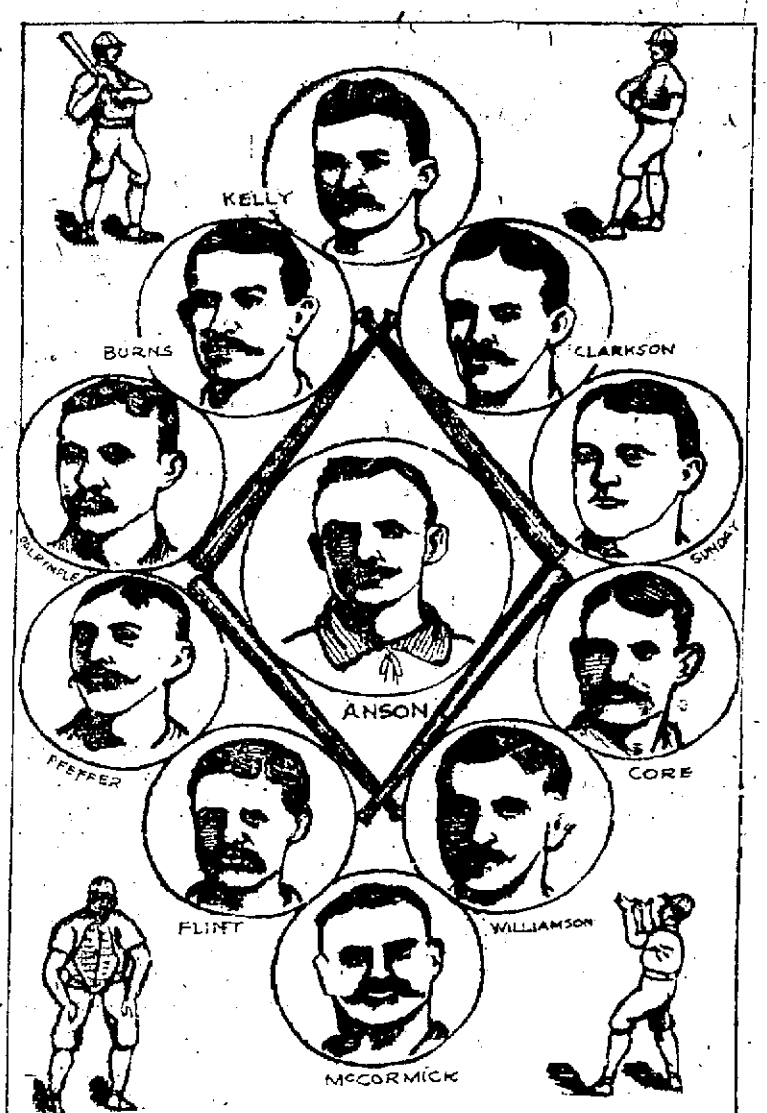

District Rock County.  
Athletic games as a variation for other forms of physical exercises have been introduced by officers of Company C of the 331st Machine Gun Battalion at Camp Grant and are proving very popular with the men in their camp.

Aside from the values of such pastimes in physical training they also arouse in the men a spirit of competition and endeavor to put forth their best efforts in what they call the game. It is an athletic way. It serves, too, as a guide for picking the best men for representative teams to participate in similar games from teams from other organizations. Natural athletes who have gone in for athletics before they came to camp show up better than those who have not tried their hand at it before, but some very good material has been found among men who have not had any bit of athletic training before and the benefit is just as great.

At the suggestion of the athletic director of the army Y. M. C. A. near Rock County, a play committee was appointed Friday morning. They will lead the teams of each separate platoon in the field during the rest period and all can go in to promote athletics among the men. Sergeant William McIntosh of Edgerton, has been named as chairman and is to confer with the athletic director for aid and suggestions. The other members of the committee are: Private Allen Ellis, Beloit, first platoon; Private Walter Smoilen, second platoon; Thomas Cronin, Janesville, third platoon; R. D. Stafford, Janesville, fourth platoon.

One of the stunts tried on the field recently was a sort of relay race between teams composed of the men in the various squads, and the competition was keen. Each man put forth his best efforts to help his squad win. Some were hampered by wearing the heavy hiking shoes and others unused to running slipped and sometimes fell, but all got a great deal of fun out of it.

## CHICAGO CHAMPS OF 32 YEARS AGO DIDN'T GET PLAYED UP AS TODAY

Reproduction from a Chicago paper of 1885, when the Chicago "White Stockings" beat the "New York nine" in the big series.

In the days of old Cap Anson, when his champion White Stockings beat the "nine" from New York, the players didn't get the play in the papers that they do today. The illustration is from a Chicago paper of that date and the story accompanying it is modestly headed "W-A-W-W."

Time was up before the finals had been run and another race is to be run off as soon as the fields are drier and in better shape. The boys in Co. C are wondering what kind of smoke the Chicago paper writers use who tell about some of the wonderful menus being served. They haven't been able to buy tobacco for the cigars which will make them as turkey with cranberry sauce, even in their dreams. The more sensible ones are inclined to the belief that such fare would be rather hard to digest with the Oronoco and catfish which make up the daily schedule. plenty for his friends. Maurice Goldberg of Beloit is a very good business man and he displayed his business ability when he was one of the first to purchase a Liberty bond. Company "C" is organizing a jazz band and when completed will have one that would make any had forget his worries if he should have any. The piano will be installed in a day or two and will be greatly appreciated as the evenings are getting chilly and a ride to Rockford would not be appreciated.

Private Cyrus Montgomery of Evansville who has so many mysteries to solve sprung a new one today when he claimed he received an anonymous letter from Monroe written in shorthand, but as he could find no one who was able to decipher the note he has not any idea of its contents. Lieutenants McIntosh and Gibson are rapidly developing into first class bond salesmen and with the former talking and the latter smiling one is hooked at the start.

The health of the boys of the company is wonderful and at the present time not one is on the sick list and they all claim they can't afford to get sick because the company is learning their drill regulations so fast they can't afford to miss one session.

Fudges hold first position with the boys in the candy game and the more they come the faster they disappear and more are always welcome.

The two popular songs of the boys are "Where Do We Go From Here," and "We Will Put An Irish Kaiser Over There."

FOOD ADMINISTRATORS URGE CONSERVATION OF POTATOES  
(SPECIAL TO THE GAZETTE.)  
Milwaukee, Oct. 24.—With Wisconsin's vast potato crop coming into the homes, food administrators are urging conservation of the supply from every angle.

Every atom of waste should be regarded as valuable, officials declare. It is pointed out that when a potato is pared very carefully about 20 per cent of it is wasted. The peelings, usually housewife throws away without a word.

Now they are urged not to pare potatoes at all, but boil them with the jackets on, and then rub the outer skin off, leaving the potato practically whole. Potatoes which are slightly dried can be soaked in water, and made practically firm as the best stock, experts declare.

## SUPPRESSED FRENCH PAPER BEATS CENSOR

[SPECIAL TO THE GAZETTE.]

Paris, Oct. 24.—The suppressed evening paper, the Bonnet Rouge, appears to have succeeded in deceiving the censor during a period of many months by publishing two final editions, one with the suppressions ordered by the censor made and another containing the prohibited articles or passages. This complete edition, a witness averred before the examining magistrate, was secretly forwarded to the front in great numbers and distributed among the soldiers in the trenches.

The witness declared that many of the condemned articles signed "Al. Badin" were written by Duval, one of the directors of the paper who is under arrest for "intelligence with the enemy"—the man who is accused of having received more than 300,000 francs from the German banker Marx of Mannheim during the year 1916.

## COMMISSION IS KNOCKED OUT AT APPLETON

Appleton, Wis., Oct. 24.—Appleton is the first city in the United States to oust the commission form of government by a special election. After one of the most bitter political fights ever engaged in here, a popular vote of 2,073 to 1,491, a majority of 582, decided against the commission form on Tuesday.

Of the 500 cities in the country to adopt the commission form, Appleton takes the lead in eliminating the system altogether. It has been in effect here seven years.

Opponents of the system declare that had they been beaten at the election on Tuesday they were arranging for individual recall of some of the commissioners, as was the course pursued in an Ohio city which tried to shake off the commission method some time ago.

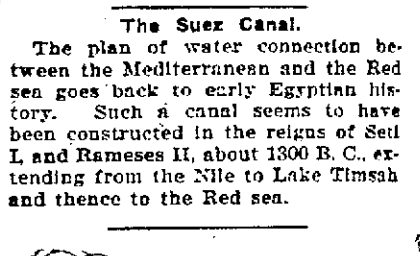

Plans are now being made for the selection of likely candidates to take up the regular municipal chairs to be filled at the April election. Until that time the commission system will continue in effect.

Six aldermen are to be elected for one year and six for two years. No mention has as yet been made of a candidate for the mayoralty.

The entire campaign preceding the popular ballot was fraught with interest and excitement on both sides. A public debate was one of the features and as points were made pro and con ripples and then hurricanes of applause swept across the hall, filled with hundreds of citizens who on Tuesday set a precedent in municipal government.

An Extravagant Woman.  
"My Auntie Frettle was in certain ways the most extravagant woman I ever knew," stated the old codger. "For example, she got the measles at sixty-seven, when by taking time by the forelock she could just as well have had them at nine."—Judge.

The Suez Canal.  
The plan of water connection between the Mediterranean and the Red sea goes back to early Egyptian history. Such a canal seems to have been constructed in the reigns of Sesostris I. and Sesostris II., about 1800 B. C., extending from the Nile to Lake Timah and thence to the Red sea.

SOME CONSOLATION.  
She—Harry, the doctor says if I keep on doing my own housework I shall be a wreck at forty-five.  
He—Never mind, dear, by that time you'll be able to afford a servant.

## By Midnight Wednesday Sept. 12th

Up to midnight, September 12th, during a period of 8½ months, we sold and delivered to tire dealers more United States Tires than we sold to dealers during the entire 12 months of 1916.

This phenomenal sales increase was made notwithstanding our epoch-making sales increases of 1916 over 1915.

These record-breaking sales increases of 1917 over 1916 and our record-breaking sales increases of 1916 over 1915 definitely and finally prove three facts:

1. The supremacy of United States Tires.
2. The fact that the vast army of automobile owners who used United States Tires in 1916 are using them in 1917 on the sheer merit of their experience.
3. The fact that another vast army of automobile owners have been won over to the use of United States Tires in 1917 on the sheer superiority of our tires over other tires that they have tried.
